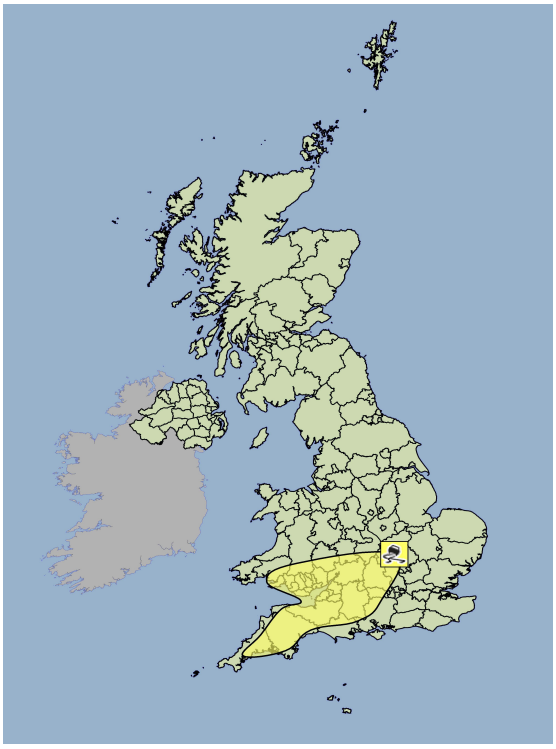
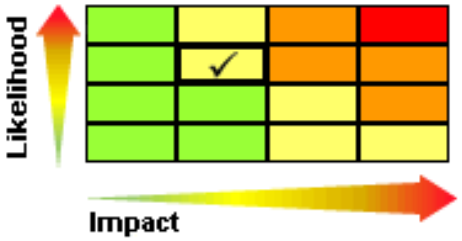
National Severe Weather Warning Service





Chief Forecasters Assessment
Overnight showers and rain, with a little hill snow, are beginning to clear southwards, with cloud breaking rapidly to the rear. This brings the likelihood of ice formation, up to and slightly beyond sunrise.

The Met Office have issued a **Yellow Warning** of **Ice**

Valid from **06:00 on Sun, 18th Jan 2015** until **10:00 on Sun, 18th Jan 2015**

Clearing skies will allow icy stretches to form quite rapidly on some untreated surfaces following overnight showers. The public should be aware of potential ice hazards if they are out and about this morning.
